Charles La O

Fullstack Developer

I'm a fullstack JavaScript/Node.js developer with over 5 years of experience in both commercial development and freelancing. My main stack consists in React.js for frontend, Node.js (Express) for backend, with AWS as a cloud service provider. I've successfully led and managed a five person team, demonstrating a rapid adaptation to new projects and a deep commitment to comprehending the development and business aspects of every project.
